"For all Patriots planning on attending the Stop the steal rally on Jan 6th: know what to expect. DC Mayor Bowser will try and block major bridges, possibly limit Metro, if you fly or drive go earlier than the day before they want to limit the 1st Amendment. They want to limit the presence so that they can deny Trump has the People's support. We can't let them succeed. This government is run FOR the People, BY the People....Congress needs a reintroduction to that fact.

Park in safe locations preferably garages with paid parking and cameras. Go with a groups. The MARC Train hasn't been running consistently to DC from WV."

Can I get a general idea of preparedness this smaller group is gear wise? For example do you have a stab vest? Plate carrier and plates? Helmet, bump cap? How about first aid? If you get hurt the medic should be using your supplies for triage not their own

I have everything, multiple plate carriers. Plates, full soft inserts, med pack filled with all kinds of shit. Kevlar helmet, bump helmet, mouth guard that kinds of stuff. Although I try to minimize what I wear, lots of gear to protect you seems like a good idea till you have to do anything important or with any speed.

I only wear a plate carrier. I advise my guys to do whatever they can to protect themselves, but I like the light weight and speed that comes with less gear. Risk/reward I guess, but DC has Dayton looking into stab proof shirts.

I don't even want to say my question... But... It raises the question of the criticism Joe got for trying to get funding when he was going to events also... So... My other question is... Can and would Joe get some fundraising going for us Florida boys... that Advantage would really help us Florida boys out because this is going to be a tight squeeze already making it there

We need to be better organized. Instead of marching in a giant unit that's easy to cut off of we split into groups with coms and GPS tracking we can control our forces better.

Events will def be much more uniform/organized in the future, especially national events. We don't want DC situations happening again, we're putting a lot of time into getting this right, one of those steps is this chapter here.

Yeah I guess in a sense that will be autonomous based on your territory and what you all plan to do at your own capitals, but there are a lot of good minds in here who can give any pointers if anyone needs it, I assume everyone here is a rally dude and is experienced anyway, but doesn't mean we cant help each other out with questions

I told him that I told them to rest while I found our bearings. I thought he was 7 blocks away in an unknown location. We were already mislead twice. His was working and ours wasn't.

For real, best thing is to invest in is some raidos and set up channels for your chapters and designate guys to watch over a smaller crowd so everyone can stay in touch, they are a lifesaver. One of our guys literally had a heart attack in DC and was saved because we were able to contact each other on these, dude wanted to go back to his room and we all told his ass he was going to the hospital and he was told by the Drs he woulda died if he did that

As of right now...

The DC trip will consist of two groups. None of which can be in colors.

1. The first group of guys have been invited to a special chapter within the organization. If you haven't been invited...please be patient. We are growing the group slowly.

2. The second group consists of PBs that are just attending the event. You can coordinate with other PBs and do whatever you guys want.

Group 1 and group 2 will not have any interaction with each other on the 5th at night and 6th throughout the day. We are running a training exercise at those times.

Group 2 is still expected to conduct themselves as gentlemen and always keep themselves in a self defense mindset at all times.

They way we do national rallies will change drastically over the course of the next couple months. After the 6th you will have to be part of group 1 to attend national events.

Ohhh the second group are those like me that's in here but am responsible for a squad that those members are not in here so I can't be in group 1. So future I can't not be in a rally leadership role for my chapter because my priority will be this group. Option 1.

We probably won't get an answer right away. Ideas "Im sure" with leadership are being thought thru. Lets see what they come up with. But these are all def good ideas that will be taken into account. Options will be assesed and 1 will be decided. Just in due time. This is a large work in progress. Keep the ideas coming Boys.

1. The amount of people and chapters raising funds when there won't be Perry's around needed to be addressed.
2. When we don't have the manpower we need to make a spectacle.
3. They can't do anything about it. It doesn't change our plans.

ANNOUNCEMENT

Tomorrow night at 9pm we will be having a live session to inform you guys how this all works.

Just because you're in here doesn't mean you will stay in here. The choice will be yours once you hear what leadership has to say.

This chapter will have a top down structure. If that's something you're not comfortable with...I'll tell you now...don't even watch the live session.

Upper tier leadership consists of six members that are broken up into two sections, Operations and Marketing.

Operations:

@DasBlackBeard
@CaptainTrump312
Rex

Marketing:

@NobleLead
@SSGBiggs69
@REBELRUFIO

The second tier will consist of 8 regional members split into two by the Mississippi method.

If you're planning on coming on the 6th you will have two choices. You're either in this group or you're with your home chapter. Being with your home chapter will not disqualify you from being in this group. Again the choice is yours. But we are going to be using the 6th as a test.

Keep the chatter that's not about this chapter here to a minimum please. And thank you!

I ordered these a few weeks back. Great for those with a beard. And these are extremely breathable and dont fog up sunglasses. Several different patterns to choose from as well. Very happy with my purchase.

I believe we have the chance to work on things that will get less people hurt. Less people arrested. While at the same time making us more prepared and effective. It's gonna take some patience and a lot of work brother. Don't give in too quick.

what is Biggs leadership of exactly ? Who elected him ? This is something i have yet to discover the answer to .

Watching his video yesterday, well a highlight of it, he is claiming himself and other leaders made the decision to not go in colors... I was under the impression this was done because DC chapter has requested this and we were honoring this. I personally think showing up out of colors is more dangerous, but I respect the chapters request and the plan here.

And doesn't this sort of contradict the rest of us being quiet .

Do we need to tell the world that's why? No. We can get antifa riled up and scared. Joe has an audience and we can use that to get messages and disinformation to the other side. Gotta think bigger bro. We know why we aren't going in colors. But the enemy doesn't need to

Got ya. Well I guess it breaks down like this. Just because you're voted into a position doesn't exactly make you a leader and just because you're not voted in to a leadership position doesn't mean you're not a leader. So not a leaders have titles I guess is what I mean.

Biggs is part of marketing. He's not part of operational. Biggs, Enrique, Rufio are the marketing squad. Operational falls under them with Rex, Zach, and Johnny. Marketing approves of the operational side but isn't responsible for creating or running it. Under that there are two regional commanders with 4 guys. The west is still being built. The east consists of Bertascoe, Aaron, Twisted Zack, and myself. UHURU!

Very Important Intel from NJ brother in regards to DC , this is still word of mouth. I don't think this is news to us , but it is a good reminder that the reaction of Coptifa is obviously going to be different.

There is also the issue of this dude. He was in DC the last couple events, we are 100% certain he is an informant, no matter which side he decides to snitch on is a matter of money now as he has been removed from his place, and the levels of desperation now are going to be serious enough that I believe we all should be aware. Stop me if I am wrong here, but a matter like this is critically important for all those past and presently involved in the rallies he knows of. He is facing several criminal cases for domestic abuse and (not verified) attempted rape.

A more desperate man you will never see. His loyalties are not with any of us or this fraternity in any aspect. But he is a massive security risk.

I hope this is the right forum for this... he contacted me after November event to kick the shit about AFG trying to get me arrested and the video he saw of me allegedly. I denied everything, he never called me before. But still, it is a grave concern.

I seen this a few times at DC2. I spent more time holding mother fuckers back than I did jawjacking with Antifa. I got free hot sauce for my contributions.

I hate when there is just one dude on the sidewalk barking at us and 30 PBs break rank to go engage. THE COPS WATCH US ALL DAY. THE MEDIA ORBITS US LIKE SATELLITES AROUND EARTH. Im not saying that we should never engage, but we need strict rules of engagement. I hate it when I see PBs do shit that I can't defend.

That's how people got stabbed.
One guy saying shit and 30 pbs go after him.
We cannot be the aggressor like that.

We just need to stay in formation and don't let anyone that is not a PB within the group.
We also cannot just hang in the streets like we did in front of Harris.

In the PNW we have always made it very clear we only stop and aggress or talk too if they are attacking in anyway. We spend more time policing our own then anything. With that there is hardly any video of 10 dudes smashing out one dude/chick. Biggest thing is policing our own. We do a battle buddy system, and then break that into a squad. It helps a ton with keeping everyone in line.

The days of just a drinking club is over. We still drink and bond but the fight chose us we didn't choose it. Ive seen all kinds of talk about days like this in a lot of chats and what would be done. These times will test the resolve of each and everyone of us. The only question is Who's Ready?

Why have our marketing dept as a part of our top tier leadership? Why not just go market? Let the operational guys make the decisions that are best for the chapter... unimpeded. I don't have a personal issue with you Enrique. I feel like we have put everything on the table with one another. However, you at the top of this handing out mandates, and mandating Biggs be involved. Is gonna make this look like more of the same to our guys.

Biggs is part of marketing. He's not part of operational. Biggs, Enrique, Rufio are the marketing squad. Operational falls under them with Rex, Zach, and Johnny. Marketing approves of the operational side but isn't responsible for creating or running it. Under that there are two regional commanders with 4 guys. The west is still being built. The east consists of Bertascoe, Aaron, Twisted Zack, and myself. UHURU!

I'll tell you what. I generally try and talk to you and everyone else with respect. I'm starting to understand that doesn't work with you. So the next time we see each other in person I'm going to have my guys with me and and I'm going to have someone record the interaction. We will see if you want to talk to me like this in person. If you don't, everyone is gonna know you are a mouthy little bitch hiding behind a title. If you do, I'm gonna kick your ass and then we can start treating each other with mutual respect. If you don't want me here.. remove me. I ain't leaving shit.

I'm impartial on the whole thing. I don't even know the guy personally. However, from what I've gathered, nobody seems to understand his role or if he's even a member. A lot of rumors without clarity.

I feel like the people who have something to say about you have never sat down and talked to you about the club. My conversations with you changed my mind about who we are and how I should act in the club. Your whole motto is protect the club and our culture.

Live at the Travelodge / Econolodge where Antifa militants have occupied several rooms. Police officers are wearing full-protective gear. Radicals with Tacoma Housing Now say police have arrived and are "breaking doors open" to remove the occupiers from the motel.

Just reading all these comments.

In regards to @SSGBiggs69: Biggs is definitely provocative on social media..I don't always agree with what he posts but Biggs is a good guy. If you've had beers with him, you'd know he's not a bad dude.

Critique someone because of their actions, sure, but the brother hunting is gay. We all have a common enemy. Every man here is an alpha and has testosterone, so we will naturally not always agree but we all would go to battle for each other.

It's clear to everyone who went to DC, that we need to get organized. Only way to do that is to have a leadership structure and chain of command. That's all this is. A structure to make events better.

You just made me think of something.
I say me make groups of

5 PBs within the big groups of 20

These 5 Guys will be in charge of "investigating" any suspect that might be following us or might be instigating us.
This way we don't have the entire 20 guys go at one person.

I am glad that we are all going to work on doing better for everyone here ...may get some people upset and it may not be popular to some ... but we work it out here , in this chapter.
In this room. And we do it for the betterment of the entire fraternity.

We stop it by policing it. The hardest thing is to police our own. But multiple dudes have too be loud and call out the bullshit. Don't just allow it to slide. We can't just run off in our own small groups. If groups do go do their own thing, they all need to be cut right then and there. We are a brotherhood, we stick together. If dudes got their own agenda as proud boys, they need too go.

Agree to disagree with Tara brother. The AIDS in regards to Tara, much like it is with Biggsy, is coming from brothers that have not stood side by side with her.

You two apparently need to have a talk about that. I was never approached about it, told about it or asked if I minded if Tara was asked to do something...I mean it doesn't exactly make my life easier....but as for her support of proud Boys it's been unwavering. She's fought in many rallies all the way back to Aug 4 2018 in Portland. She got bear maced and a black eye and saved a AG brother getting beat on that day. She may not be a member, but she can stand by me any day

I think we should address one issue at a time. Solve that specific issue and then move on to the next. The end result isn't going to happen overnight. Plus it won't turn into a giant aids fest with everyone all over the place.

As far as "investigating" agitators, I think that it is clearly a case by case type situation. Seeing one rainbow shield wielding larpist screaming my body my choice is clearly a nothing to see here type situation. However, if we have an active body of scout types prowling and regrouping at different points in a March, we do the same and post watches in critical areas which may be breached for instance

Since this whole chapter is volunteer, I had a thought on how to keep order. I watched a lot of dumb shit go down in DC where Beard was trying to keep the peace and people were pretty much like "fuck him". Acting stupid or putting your bros in danger while performing your duties as part of this chapter should carry severe penalties. You dont have to be here and if you're gonna be here you are agreeing to act with some honor and dignity.

If you are part of MOSD and you disobey leadership or are derelict in upholding our values in front of the public the punishment should include potential disavow from the organization.

Some people don't understand that if they aren't part of this including the planning, they just become a liability. They're more worried about feeling cool or being a tough guy

Bro the shit I'd like to say to that guy, you can try to march with us but don't expect a friendly reception and if you decide to march in front of us we will just stop. Good luck fighting a gang of Soyboys alone. You are only able to march like that because of us and if you won't listen to us expect a harsh reaction. We have our brothers to protect

From: 1261651524 Noble Beard The Immortal

The size that you should be concerned with is the armour plate. You will want a plate size that sufficiently covers all of your vital organs and also at the same time, has enough room to hold your armour. Both specific and different armor cut types (such as; shooters and swimmers cuts) can also be accommodated. The front plate pouch must sit at the width of two fingers under your collarbone. The shoulder straps can be used to adjust the rear plate pouch to make it in line with the front so that it doesn't sag at the back. You can also remove the side straps and attach it to the front side so that the webbing or attachment systems will not get obstructed. Then you can feed the strap back through its rear plate pouch. You can tighten or loosen the side straps as much as you want for comfortable movement and breathing. To check if everything is adjusted properly, you can lean your waist back and forward, side to side, bending over and touching your toes. If the plate carrier doesn't dig into the body, then it means that it has been correctly fitted. You must attach these things in a manner that do not interfere with your purpose, ease of use and accessibility, such as; the pouches mounted on the side must never interfere with your access to a molle pouch or other things on the beltline. You will need to balance the things and distribute the weight at the centre. If you have a strong right side, it would be ideal to balance it with a bleeder stopper...or your molle IFAK kit

Box the march out with security team and keep them out, put some big dudes out there on the perimeter and let them know we are passing through, sure up the rear and stay close on that line and keep them out of the ranks... letting them know we're in formation right now you can follow behind!

Welcome to the Ministry of Self Defense.

Chat rules are as follows...

1. No fighting. These are your brothers. Excessive squabbles will grant you a mute or removal.
2. Stay on topic as much as possible.
3. Screenshots or the sharing of information outside of this chat is an instant disavowal out of the chapter. NO EXCEPTIONS. What is said here will stay.
4. Do not use threats of violence in this chat. We are gentlemen...act like it.
