2:39:26 AM	Captain Trump 454128414	They may or may not be sad, but when their boss creates charges and tells them they have to arrest you because you gave a statement relating to standing up for yourself over why you did something, they'll still arrest you to keep their job. At the end of the day, thats what we gotta be aware of. Don't talk to the police, they may be our friends, but they have to keep their job too, so at the same time, they aren't.

6:56:54 PM	SPAM TACOS 619839226	The fact that the rally bois put every member of this club at risk and have no remorse of that fact is disgusting woman like behavior. To expect anyone to listen to people that make the same retarded mistakes over and over even when half the presidents are against it is insane. @NobleLead I just saw you mention making two clubs but we're not going to have to. One club is going to be formed in jail.
7:08:04 PM	Rufio Panman 573782641	I'm not sure what some of you want. You want to be in a club were we watch what's going on around us and do nothing? Is that proud? Read our manifesto, have you read the death of the west? This attitude is exactly why we are at where we are in this country, people were too afraid to stand up and didn't want to risk their comfortable lives to preserve what men before us died for. This club has NEVER not been active in the fight to preserve our western values. If you want to blame guys like me, fine, but it doesn't change the fact that we are all slowly losing our freedoms one day at a time, Proudboy or not. I guess you will have to figure out who you are going to be amidst all this and if you can live with yourself after all is said and done.
7:08:57 PM	Rufio Panman 573782641	We've all agreed to a stand down, but some of you fucks can't ever be satisfied. I have zero fucks to give to you
7:11:32 PM	Miguel H. 575806063	 <i>Excuse me, guys, it's Saturday, and as Proud Boys, whether you're a fuckin', uh, you know, rally boy or a party boy, both of you faggots should be drinking. And you know what's on right now that I'm about to watch, about to have my boys come over? The McGregor fights, yeah. But I'm goin' for Poirier, because he's from Louisiana and I've met him before, and he's a cool dude. But McGregor's probably gonna murder him, so. Y'all do some cool shit, man, instead of arguing.</i>
7:12:35 PM	Rufio Panman 573782641	 <i>The point is not about results, man. The point is, we can stand and do nothing and maybe -- maybe -- we'd be better off, but it's, that goes against everything we stand for. And, I'd be lying if I said I haven't lost a whole lot; there's no doubt about that, but I also tell you right now, um, that a lot of people don't have what we have. We basically have a small army at our disposal and other small armies attached to us that will follow us because of the reputation we've built. So if shit does hit the fan, the things that we've done and our reputation that we've built and the experience that we gained, um, is priceless in my opinion. Our ability to, uh, confidently go and confront these issues in our communities where other people have completely lost that confidence in this day and age is priceless to me.</i> <i>So that's what I think we've, we've gained. Freedoms have been taken left and right, I would say mostly because people just didn't do enough, and we banked -- we banked on Trump to do our bidding and, um, he fucking didn't follow through. So, I agree with what everybody's saying, honestly, and I think we all came to an understanding that, you know, we need to be smarter and back down from rallies. But if we're gonna question everything we've done in the past as if it was all for nothing, well, I mean, I don't really know what to say about that. I mean, we could say-- we could talk back and forth about shit like that all day, uh, but the fact is that we're here, and I'm proud of who we are and what we've overcome amidst everything that's been thrown at us, we're still standing on two feet, and I don't think that's something we shouldn't be proud of. I think we should be damn proud of who we are. And yeah, there's definitely a lot of risks and a lot more heat on us, but we can handle it if we're smart. But to criticize all the guys who have gone and done all of these things, um, and the hours, and the fucking planning, and the brutal bullshit that we've had to deal with in the streets, is not proud, I don't think.</i>
