

Matthew Truo...

Matt, I am meeting 6p.m. with officers of Blue Ridge Militia. Your intro will be easier for me to arrange thereafter. Burning question: do you have any members of your community who have, or have contacts who have a boat we could have in the Potomac on the 6th? Here's why: we are not going in with guns. However, we have designated a Quick Reaction Force which will have all such things. If things went really bad and we needed to fight back to save lives, the QRF vehicle will have a hard time fighting through traffic to get to our guys. But if we had a boat standing by, the QRF could load the boat, ferry stuff to our waitin arms. If we had to get folks OUT,

will have a hard time fighting through traffic to get to our guys. But if we had a boat standing by, the QRF could load the boat, ferry stuff to our waiting arms. If we had to get folks OUT, sick, hurt, just too cold, we could get them out via boat and our QRF vehicle could get them home or coordinate it. If someone had a commercial boat even, maybe we could hire it for the day (I would get the \$) and if traffic is just too brutal we could ferry people IN to the protest. I have 5 coming in from Ohio, 15 from florida. Going to be hard for us to drive in and not get separated including in terms of the nightmarish parking. Could I respectfully ask you to put out the call? Its a way a patriot could help and we will compensate them, no worries. Thanks in advance for your help.
